

## UBERCRUZ

The 12' Uber Cruz is leading the way in it's second year, supporting cross training athletes worldwide that have discovered the benefits of SUP paddling and what SUP can do for core strength while having fun on the water or in the cleaner waves.

One of our most popular boards, with a rapidly growing fan base, the 12' Uber Cruz has the stability, glide and projection that made it a leader. The highly foiled rail and step deck design are why this board works so well. The entry is low and clean. The Uber Cruz leaves a minimal wake even when being aggressively paddled. The step rail blending into a foiled swallowtail is a hydro-dynamically clean transition that makes the board a pleasure to paddle.

Wether you're in the surf, on flatwater or Cross Training, the Uber Cruz has you covered.
