

# MINI ★ MAGIC

The Mini Magic was designed for two groups of surfers asking for the same Magic Model board. One group of Longboard riders wanted to try the Magic rails and bottom design in a smaller size range as they rounded out their quivers with smaller performance funshapes. The other group of Mini Longboard riders are smaller surfers and women that needed a narrower/shorter performance shape.

The Mini Magic is built in the new X-2 epoxy that exceeds the durability of other constructions. For 2011 we have managed to reduce the weight of these boards to increase performance yet again.

The Mini Magic is one of the most versatile mid sized boards we have in our range.

LENGTH	WIDTH	THICK	VOLUME	FINS	APPROX WEIGHT RANGE
7'0"	21 1/4"	2 5/8"	48 ltr	6" Center FCS sides	0-165lbs (0-75kg)
7'6"	21 3/4"	2 3/4"	45 ltr	6" Center FCS sides	0-165lbs (0-75kg)
